Flutter Development

Firebase

PROFILE

"Final-year Computer engineering student at Zeal College of Engineering with a strong foundation in software development, data structures and problem-solving. Skilled in Flutter app development and C++ programming, with hands-on experience creating functional apps such as a blood donation app and advance to-do list app. Seeking a challenging role to apply my technical expertise and contribute to innovative software solutions. Excited to bring creativity, attention to detail, and teamwork to a dynamic software development team. Aspiring to contribute to impactful projects in the field of mobile and web application development."

INTERNSHIPS

flutter intern at incubators, Pune

August 2024 — Present

Developed cross-platform mobile applications using Flutter, ensuring compatibility with both Android and iOS platforms

Integrated Firebase for backend functionality, including authentication and real-time database management.

python programming intern at internepe , Pune

July 2024 — July 2024

Collaborated with cross-functional teams to debug, test, and deploy scalable solutions.

EDUCATION

BE Under-graduation (Computer engineering) , Zeal college of engineering and research,Pune, Pune

July 2021

CGPA 7.10

XII (CBSE) | 88% | Jawahar Navodaya Vidyalaya Satara

February 2020

XI (CBSE) | 86% |Jawahar Navodaya Vidyalaya Satara

Satara

February 2018

CERTIFICATIONS

Python and machine learning

July 2024

@core2web technologies,Pune

Internet Of Things Workshop, Pune

March 2024

★ PROJECTS

○ Employee Management

"Developed an Employee Management System using Python as part of the Super X program at Core2Web. Implemented functionalities for employee data handling, including adding, updating, and retrieving records, with a focus on efficiency and user-friendly design."

○ Blood Donation App

"Developed a Blood Donation App using Flutter and Firebase during a program at Incubators. Implemented features for donor registration, blood group filtering, and real-time data management to streamline the blood donation process."
